Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Tarnay discussed amending the claim to create a less passive voice; to demonstrate that as a result of an object being detected in a 2D measurement mode where the cameras move independently, the cameras both move to an overlapping range for the 3D measurement mode. The claimed language shown in the proposed amendment in the fax sent does not overcome the prior art, but depending on the wording of the amendment, the prior art can be overcome..
